Music & Arts Department

Welcome and thank you for being interested in joining the Music & Arts Department here at FFCON.

If this is your first time, this process of evaluation is to determine where you are in your music ability and where you would best fit at the current time of your evaluation. It will also help me to get to know you better!

Please go into this process with an open mind and willing heart, ready to grow together in Christ. I encourage you to be willing to serve anywhere that you are asked as all areas of ministry are of equal importance. A servant's heart is what will make your addition to the team effective.

- **Preparation is not just done in the time set aside for group rehearsals.** It will be expected that you will take time at home to learn your parts so that we can make the most of our time when we meet. It is inconsiderate to others if you come in not having learned your parts as it will take longer to rehearse so please dive in. I promise it makes things so much easier.
- **Playing in time is crucial.** In some services we use backing tracks that allow us to keep in time and add instruments and parts that we may not have. If you are not use to playing with a metronome, no problem. You **WILL** need to start working on playing in time right away. If you do not have a metronome at home, you can get an app on your phone for free.

I want to say thank you for stepping out and being willing to use your talent. Please know that this process is to help you and the team to grow and mature in your talents and relationship with Jesus.

As we walk through this process together I will give honest feedback as to whether you would be ready for to join one our teams. I may even suggest another role that you may have not considered. I will offer ideas to help you improve and hone in your skills. It is my goal that you would be enriched and encouraged in this area of ministry.

Let's start walking together.
